

MariBank and Lion Global Investors launch Mari Invest, Singapore's first instant cash-out investment account offered by a bank

SINGAPORE, 3 October 2023 – MariBank, in partnership with Lion Global Investors, today launched Mari Invest – an investment account designed for consumers seeking simple and rewarding ways to grow their wealth. Mari Invest is the first investment account by a bank in Singapore to provide instant cash out¹.

Making Investing Simple and Rewarding

Mari Invest is designed to make investing simple, by removing the traditional barriers to investing, such as high minimum investment amounts, sales or platform charges, and lengthy lock-in periods with long redemption timelines.

Investors can start investing with just \$1 with great flexibility, and withdraw their investments instantly in cash anytime¹.

There are no sales or platform charges and there are no lock-in periods or penalties for withdrawals.

With Mari Invest, investing is made rewarding, by offering investors access to low-risk investments such as MAS Treasury Bills, money market funds and high-quality bond funds, enabling investors to participate in potentially higher returns while keeping overall portfolio risk low.

The Lion-MariBank SavePlus fund is offered in collaboration with MariBank's fundhouse partner, Lion Global Investors (LGI), one of the largest asset management companies in Southeast Asia with more than 37 years of investment expertise.

Zheng Yudong, CEO of MariBank said, *"We know that consumers today want to grow their wealth but may find it hard to make decisions with the complex investment products out there. That's why we introduced Mari Invest, it offers consumers a simple way to manage their wealth with relatively low risk. They can also rest easy knowing it's managed by one of the largest asset management companies in the region."*

Teo Joo Wah, CEO of Lion Global Investors, said the partnership demonstrates LGI's ability to build solutions to help address the liquidity expectations of digital bank clients. The combined offering with MariBank, a digital bank, makes it extremely convenient and seamless for investors as it will be deeply integrated with MariBank's banking solutions.

"The collaboration with MariBank validates the demand for a simple and effective approach to liquidity management. This product is an expansion of our product range and demonstrates our capabilities in providing innovative and democratized investment solutions for retail investors through a digital backbone."

MariBank offers a suite of simple and rewarding offerings and is rolling out its banking products to consumers beyond Sea's ecosystem.

Mari Invest complements MariBank's flagship savings product, Mari Savings Account, providing simple and rewarding offerings for users to manage their finances.

The Mari Savings Account currently offers 2.88%² p.a. interest, paid daily, without the need to fulfill any additional conditions such as salary crediting or minimum spend.

Consumers may enjoy the benefits of both products by earning daily interest on balances in the Mari Savings Account, and invest through the seamless transfer of funds to the Mari Invest Account.

Both products are now available to eligible users in Singapore. Consumers can sign up for a Mari Savings Account and Mari Invest by downloading the MariBank App from Apple's App Store and Google Play Store.
